Additional Implements may be added to the list, if requested by Member Federations directly or by manufacturers with the endorsement of a Member Federation, by 26 December 2024, and if supplied to the LOC free of charge. All such implements must have World Athletics certification and must be approved by the European Athletics Technical Delegates. Six items of each implement model must be supplied by the Member Federation or manufacturer concerned and must be sent to the LOC by 26 January 2025 at the latest.

Personal Implements will also be allowed, providing that:

- They are readily identifiable and are World Athletics certified.
- They have been checked for compliance with World Athletics Rules.
- They are made available to all the other athletes until the end of the Final of the event.

In order to speed up the checking in of eligible personal implements, please come prepared and consult the approved list on the following website: <https://worldathletics.org/about-iaaf/documents/technical-information> in advance to identify the implement noting its certification number.

If you do not find your implement in the list but you believe that it is/was certified, please contact the World Athletics office at technicalofficer@worldathletics.org so that its status can be checked and confirmed to you and the LOC in due time.

Personal implements that are not identifiable or cannot be found on the certified list will not be accepted!
